

Support for Daines' Clean Water for Rural Communities Bill

Mandi Nay, Coordinator, Dry-Redwater Regional Water Authority: *"The CMRWA Board is very happy to take this major step forward toward authorization of our much-needed regional water project. It has been a long, expensive process to get to the point at which authorization is even possible. The Board members are thankful for the continued help and support of our Congressional delegation and staff and we appreciate Senator Daines' efforts to ensure the Energy and Natural Resources Committee passed this authorization language."*

Monty Sealey, Project Administrator, Central Montana Regional Water Authority: *"The CMRWA Board is very happy to take this major step forward toward authorization of our much-needed regional water project. It has been a long, expensive process to get to the point at which authorization is even possible. The Board members are thankful for the continued help and support of our Congressional delegation and staff and we appreciate Senator Daines' efforts to ensure the Energy and Natural Resources Committee passed this authorization language."*
