

Supporting Made in America Energy Act

The *Supporting Made in America Energy Act* ensures the United States maintains and grows its energy independence by supporting Made in America energy. Consistent with and supporting existing law, the bill bolsters traditional energy by requiring the Department of the Interior to hold four onshore oil and gas lease sales in the top oil and gas producing states as well as requiring two annual offshore oil and gas in the Gulf of Mexico and six sales over a ten-year period in Alaska's Cook Inlet.

Section-by-section:

Section 1, Short Title:

- *Supporting Made in America Energy Act*

Section 2, Required Onshore and Offshore Oil and Gas Leasing:

- Onshore:
 - Requires the Secretary of the Interior to immediately resume oil and gas lease sales
 - Requires a minimum of 4 lease sales in the top oil and gas producing states: WY, NM, CO, UT, MT, ND, OK, NV, and all other eligible states.
 - Requires a replacement sale if any of the 4 required sales were paused or canceled.
- Offshore
 - Requires 2 region-wide offshore oil and gas lease sales in each of the Central Gulf and Western Gulf of Mexico Planning Areas and specifies the date for each sale.
 - Prohibits oil and gas leasing in the East Gulf of Mexico
 - Requires 6 oil and gas lease sales over a 10-year period in the region-wide offshore oil and gas lease sales in the Cook Inlet Planning Area and caps the Royalty rate at 12.5%
 - Requires the Secretary to begin planning the subsequent oil and gas leasing program no later than 36 months after the first sale.
